

Submitter: Stephen Galliver

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2571

If the goal is to reduce carbon emissions, rebates for electric bicycles will have a greater effect than rebates for electric cars, simply for the reason that taking a car completely off the road has a greater effect than driving an electric car instead of a gasoline car.

I strongly support measures that will encourage people to use bicycles rather than a car for short trips.
