Measure: HB3214

This is egregious animal exploitation and utter cruelty! These animals don't want to be in a circus performing unnatural acts for humans who haven't a clue what these animals go through on a daily basis...made to fear humans...fire....whips chains etc. They're caged their entire miserable lives usually in cages far to small for them to turn around. Psychotic behavior from being caged...pacing...self mutilation...utter depression to name a few. This must stop!  
Thank you!
