

Submitter: Shannon Camacho
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3214

To whomever this may concern, as some one who was heavily raised to love and respect animals, I ask you to please not pass this bill. So much education is spread to our children through traveling organizations. These organizations teach our children about so many exotic animals which in turn sparks their interest and fascination in these amazing animals. These sparks of interest lead to future zoologists, veterinarians, and conservationists. Please don't take this from our children and future generations. Thank you for your time.
