

Submitter: Dawn Smallman

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3214

Please support this bill and end the suffering and abuse of animals who are forced or bred into captivity first, then abused and forced to live unnatural lives as performers in circuses and other traveling acts. These types of acts should only include human performers - who can choose to participate. To force an animal into these circumstances is abusive and only benefits the humans who profit off of the abuse. Please support this bill that will end this cruelty.
