

Submitter: Jon Funrue  
On Behalf Of: taxpayers  
Committee: House Committee On Judiciary  
Measure: HB3214

We don't need more laws. Current laws are on the books and this just makes our lives more confusing. Enforce the current laws. Citizens are forfeiting more rights every day under the guise of "protecting something". Wake up people! Quit giving up your freedom.

My guess is that those who sponsored this bill as well as those who support it also support harming babies through abortion. Get your heads on straight!
