

Submitter: ANGELICA HAMMOND
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3214

Dear Judiciary House Committee,

I oppose HB 3214. 4-H projects with animals are an integral part of our community and a fantastic learning experience for kids. They learn so much from this experience and come from various towns to show their animals at county fairs as well as the Oregon State Fair. It teaches responsibility, how to raise and care for animals daily(no matter the weather outside) as well as financial responsibility calculating costs of raising and maintaining the animal. The fairs and rodeos are not just for fun either - they are learning opportunities to share with our youth and providing resources to engage in the outdoors instead of glued to their phones or computer screens.

Please deeply consider opposing HB 3214 - would you want these opportunities taken away from your children or grandchildren? I would hope NOT!
