

Submitter: Jarrett Altman

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Please vote no on this legislation! Small landlords can not afford to keep their rentals updated and keep up with rising costs of taxes and utilities with these proposed restrictions. All of the burden of every problem in Portland seems to fall squarely on the shoulders of the small landlords. We should be forming a coalition between landlords and tenants and creating positive relationships between the two, not constantly creating legislation that pushes us further apart. It only works to benefit the big companies by pushing out small landlords, which is ultimately going to be far worse for tenants if there's no room for compassion and conversation.
