

Submitter: ELAINE LAVINGTON

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

I oppose HB3090 because it will not curb the use of smoking. There is flavored marijuana that is not being banned so why would there be a ban on flavors for smoking. It will hurt small businesses that sell smoke products. Worry about reversing Measure 110 that has created more drug use instead of quite the opposite effect. The priorities are not in the right place for whoever put this bill forward.
