

March 21, 2023

Dear Chair Nosse, Vice-Chairs Nelson and Goodwein, and members of the House Committee On Behavioral Health and Health Care:

I am writing in support of HB 3090, the Preventing Nicotine Addiction bill, which will protect our kids and our communities by ending the sale of all flavored tobacco products in Oregon.

I am the Executive Director of the Vietnamese Community of Oregon (VNCO).

I would like to share my family 's own experience about smoking cigarettes. My dad and my younger brother smoked cigarettes many years and they got grey spots on their lungs, had to take medication, very hard to stop smoking after having tobacco related lung diseases. VNCO supports this bill because smoking is prevalent among the Vietnamese community. As an organization we have the opportunity to educate our community about the harms of tobacco. We want families to not experience what my family did, and to stay healthy and tobacco free.

Our kids are being targeted by Big Tobacco. Our kids are using flavored tobacco. While product names like Cotton Candy and Tutti Fruitti sound harmless, they are very dangerous. Consider the facts

- More than 3 million middle and high school students use tobacco and e-cigarettes.
- 85% of youth e-cigarette users use flavored products.
- Tobacco is the leading cause of preventable death and disease in Oregon, killing over 8,000 Oregonians a year.

Nicotine is highly addictive and can harm adolescent brain development. Taking action now will help protect our kids, prevent serious health impacts and avoid a lifetime of addiction.

Why is this bill necessary, when retailers are already prohibited from selling flavored tobacco to young people under age 21? Because it's not working.

- The Oregon Health Authority recently reported that 25% of Oregon businesses sold tobacco to underage buyers.

Passage of HB 3090, the Preventing Nicotine Addiction Act, will go a long way to protect youth across Oregon from falling into the trap of nicotine addiction and tobacco and e-cigarette use, as well as the host of serious health consequences associated with their use.

Sincerely,

Thao Tu

Executive Director

Vietnamese Community of Oregon
