

Submitter: Harmony Elliott

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

Rep Nosse, and members of the committee my name is Harmony Elliott, and I'm the Manager for two Smokeless Solutions locations in Roseburg. I have been with this company for many years and I personally have helped many people quit smoking and switch over vaping. Our goal in all our stores is to help people quit smoking, and we do that WITH flavors. In the 3+ years I've worked here I can't tell you the very few times I've helped a customer and they asked for a flavorless or a straight tobacco e-liquid. Why? Because adults like flavors, I like flavors and flavors like (Skittles, Fruity Pebbles and Bubblegum) are some of our number one sellers to Legal 21+ adult customers. It's because of vaping and flavors that myself my loved ones and all of our customers were able to quit smoking and live a healthier lifestyle.
