

Submitter: Nina Nilson Soriano

On Behalf Of: Smokeless Solutions

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

My name is Nina Nilson Soriano and I oppose this bill HB3090. I was able to quit smoking cigarettes thanks to e-liquid. As someone who works in the industry, I have helped countless customers quit smoking cigarettes and switch to vaping and then eventually quit all together. We do our part to ID every customer who we help as soon as they walk through the door. We have passed sting operations that have made sure we do not sell to minors. Taking away this right to adults is just another prohibition.
