

Submitter: Joanna Hurley

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

Dear House Committee,

I'd like to suggest not penalizing the responsible adults and business owners who choose to use and sell these products but instead uphold and finetune the state mandated protocol for business that are selling to minors. Much like how the DMV treats licensing and drivers who either comply, or fail to comply, all without penalizing those who comply.

Thank you sincerely for ready,  
Joanna
