

When will the infringement on the rights of the Property Owner end? Answer, lets start with the rejection of Measure SB611. Show the Property Owners in Oregon there is equal and equitable representation for all the people, not just 'special interest groups'.

This Measure will have a reverse effect on the Tenants, it will cause Property Ownership to increase the rent, demand stricter application requirements and increase pre-rental deposits. The cost impact will be substantial and is in direct response to Measure SB611. Unlike the Government the Landlord/Property Owners has to pay their creditors and does not have an unlimited budget.

Being a small individual owner of a Duplex, we are being pushed into a unmanageable situation. We are being forced to sell our properties to a large financial investor that have the resources to fight these legal battles. Please realize these corporations will increase the rent required to cover these issues. Is this what the State is trying to accomplish?? While on one hand the State is trying to protect the Tenant, yet by their lack of foresight (or is it big business lobbying for this measure ??) they are creating an additional burden on the Tenant, the Landlord/Property Owner and not to mention additional burden on the Legal System in dealing with these issues!

Please reconsider these type of Measure before passing. This will have no effect in helping or solving our housing crisis, in fact it will have a detrimental effect on all parties concerned.

Vote NO on on Measure SB611
