

Submitter: John Cervelli

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

We are in opposition of Bill 611. It will hurt many individuals and businesses in all our cities in Oregon. Let us learn from the mistakes of California and New York. This bill will be very destructive to our economy. Why are there so many rights and protections for tenants, but why are there so many risks and no protections for property owners (Landlords)? Don't cause more instability to housing in this State of Oregon. Thank you.
