

Submitter: Elizabeth Haemmel

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

And one more thing is that I was planning on using the income from my rental property towards my retirement income. These changes that you are considering would make things very tough for myself and other landlords. I could rent my property out to one of these companies that manage vacation rentals and earn considerably more. That isn't something I have been thinking about doing plus it would take the property away from other renters. I hope you will consider my views. Thank you.
