

Submitter: Paula McNeeley
On Behalf Of: Or State fair emergency center
Committee: Joint Committee On Ways and Means
Measure: SB5506

The Or. State fair grounds have been used for many emergency over the years. From fire evacuations for both animals and people. During Covid I don't know what we would have done without there assistance. I want you to consider the cost of them not being able to continue to fill that need, when it comes again because it will. Putting the money towards getting it better prepared, to be an efficient emergency site. Is a smart use of money so when the next emergency happens they can step up, in an organized and efficient manner.
Thank you
