**BACKGROUND:**

[House Bill 3456 \(2023\)](#) created a Sexual Misconduct Survey Council to develop a standard statewide sexual misconduct climate survey. It also implemented specific requirements for how institutions of higher education should address sexual misconduct on campus, including collecting and reporting certain data, providing prevention and awareness training to students and employees, and offering certain services to students who report experiencing sexual misconduct. The requirements, codified in ORS 350.335 to 350.346, are in addition to provisions passed in [Senate Bill 759 \(2015\)](#) and [House Bill 3415 \(2019\)](#) that require institutions of higher education to adopt a written protocol and written policies concerning sexual violence and misconduct. Requirements for those policies and protocols are codified in ORS 350.253 and ORS 350.255.

As of 2023, at least six other states, including New Hampshire, Massachusetts, Connecticut, Illinois, Nevada, and Maine, have passed laws to create a statewide sexual misconduct climate survey. While some laws were limited to creating a climate survey, other states also enacted some elements of House Bill 3456 (2023). Nevada Senate Bill 347 (2021), for example, authorized the state's Board of Regents to require institutions to adopt sexual misconduct policies and enter into a memorandum of understanding with service providers.

The federal [Violence Against Women Act \(VAWA\) Reauthorization Act of 2022](#), among other provisions, required the Secretary of Education to develop a standardized survey to collect information on student experiences of sexual violence and misconduct in higher education. In 2023, the [U.S. Department of Justice](#) awarded a \$899,825 grant for the purposes of designing and testing this survey tool.
