Declares an emergency, effective on passage.

A BILL FOR AN ACT

Relating to housing; and declaring an emergency.

Whereas the housing supply crisis is impacting the economy of Oregon's rural communities; and

Whereas housing prices have increased exponentially, and supply is diminishing, leading to Oregon's workforce not being able to purchase or rent housing in rural communities; and

Whereas without access to the same resources as larger cities, the costs of infrastructure to support workforce housing production in Oregon's small and rural cities is cost-prohibitive; and

Whereas employers in rural communities are struggling to recruit and retain a workforce due to housing shortages, leading to impacts on local economies and basic services; and

Whereas Oregon needs to incentivize home construction serving households with 130 percent of county median income or less, which is housing for the general workforce, including teachers, firefighters and service industry workers, in these smaller and rural communities in order for these communities to continue to grow; and

Whereas cities with a population of 50,000 and fewer need more tools to meet their housing needs; and

Whereas providing stopgap infrastructure funding for housing developments and requiring those developments that receive the funding to set aside housing units for workforce housing will increase housing supply and guarantee workforce housing in rural Oregon communities; now, therefore,

Be It Enacted by the People of the State of Oregon:
