(3)(a) When a controlled substance is at issue in a criminal proceeding before a grand jury, at a preliminary hearing, in a proceeding on a district attorney’s information, during a proceeding on a Class E violation or for purposes of an early disposition program, it is prima facie evidence of the identity of the controlled substance if:

(A) A sample of the controlled substance is tested using a presumptive test for controlled substances;

(B) The test is conducted by a law enforcement officer trained to use the test or by a forensic scientist; and

(C) The test is positive for the particular controlled substance.

(b) When the identity of a controlled substance is established using a presumptive test for purposes of a criminal proceeding before a grand jury, a preliminary hearing, a proceeding on a district attorney’s information or an early disposition program, the defendant, upon notice to the district attorney, may request that the controlled substance be sent to a state police forensic laboratory for analysis. [The defendant may not make a request under this paragraph concerning a controlled substance at issue in a proceeding on a Class E violation.]

(4) Notwithstanding any other provision of law, in all prosecutions in which an analysis of a controlled substance or sample was conducted, a certified copy of the analytical report signed by the director of a state police forensic laboratory or the analyst or forensic scientist conducting the analysis shall be admitted as prima facie evidence of the results of the analytical findings unless the defendant has provided notice of an objection in accordance with subsection (5) of this section.

(5) If the defendant intends to object to the admission of a certified copy of an analytical report as provided in subsection (4) of this section, not less than 15 days prior to trial the defendant shall file written notice of the objection with the court and serve a copy on the district attorney.

facts which support the conviction and all intervening circumstances to the specific occupational or professional standards in determining the fitness of the person to receive or hold the license. [There is a rebuttable presumption as to each individual applicant or licensee that an existing or prior conviction for conduct that has been classified or reclassified as a Class E violation does not make an applicant for an occupational or professional license or a licensee with an occupational or professional license unfit to receive or hold the license.]

(3) Except as provided in ORS 342.143 (3) and 342.175 (3), a licensing board, commission or agency may deny an occupational or professional license or impose discipline on a licensee based on conduct that is not undertaken directly in the course of the licensed activity, but that is substantially related to the fitness and ability of the applicant or licensee to engage in the activity for which the license is required. In determining whether the conduct is substantially related to the fitness and ability of the applicant or licensee to engage in the activity for which the license is required, the licensing board, commission or agency shall consider the relationship of the facts with respect to the conduct and all intervening circumstances to the specific occupational or professional standards. [There is a rebuttable presumption as to each individual applicant or licensee that an existing or prior conviction for conduct that has been classified or reclassified as a Class E violation is not related to the fitness and ability of the applicant or licensee to engage in the activity for which the license is required.]

(b) The people of Oregon further find that a health-based approach to addiction and overdose is more effective, humane and cost-effective than criminal punishments. Making people criminals because they suffer from addiction is expensive, ruins lives and can make access to treatment and recovery more difficult.

(2)(a) The purpose of the Drug Addiction Treatment and Recovery Act of 2020, as further amended, is to make screening, health assessment, treatment and recovery services for drug addiction available to all those who need and want access to those services and to adopt a health approach to enhance assessment, treatment and recovery services to address drug addiction by removing criminal penalties for low-level drug possession.

(b) It is the policy of the State of Oregon:

(A) That screening, health assessment, treatment and recovery services for drug addiction are available to all those who need and want access to those services; and

(B) To encourage treatment and recovery for people struggling with substance use.

(3) The provisions of ORS 430.383 to 430.390 and 430.394 shall be interpreted consistently with the findings, purposes and policy objectives stated in this section and shall not be limited by any policy set forth in Oregon law that could conflict with or be interpreted to conflict with the purposes and policy objectives stated in this section.

(4) As used in ORS 430.383 to 430.390 and 430.394, “recovery” means a process of change through which individuals improve their health and wellness, live a self-directed life and strive to reach their full potential.
