

Submitter: Tal and Jody Blankenship

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB4014

We have a pond that borders our driveway on our property.

Beavers had moved in and constructed a lodge home. In the process they also plugged up the exiting culvert. This caused the pond to overflow its banks and flood our driveway.

Having a program that had funding available to help cover the cost of a pond lever device has solved the problem and made it possible for us to live with our beavers and keep our driveway.
