Testimony in support of HB 4082

Beyond the bell (after school and summer) programs for K-12 students is one of the wisest investments that Oregon can make. Please support HB 4082

As a public-school teacher, I supported and hosted many after school and summer programs. These programs capitalized on the sizable investment that has already been committed for the school day. The growth that I saw in students was incredible. Capturing the school year efforts and extending them into additional time was both cost effective and productive. I am especially in favor of STEM related opportunities.
