

Submitter: Nancy Weil

On Behalf  
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB4132

Dear House Committee members,

A letter of support has already been submitted to my state representatives, Senator Weber and Representative Javadi as well as Representative Gomberg. I hope they will have encouraged this committee to not delay in moving HB 4132 forward.

With wide support from both sides of the aisle as well as the Coastal Caucus, it was unfortunate this bill did not get its final vote during last session.

My husband and I live (as full time residents) off the Cape Falcon Marine Reserve. I have attended many informative meetings and events held by the ODFW Marine Reserve staff. The dedicated staff has worked not only to pursue ocean research but to engage the Oregon communities to ensure the program's success. A success it has been and must be supported to continue and thrive to further our knowledge and understanding of Oregon's near shore waters, for all of us.

Please support HB 4132!

Nancy Weil
