

Submitter: Donna Bleiler

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I OPPOSE -1 Amendments. If you make it through the bill, it's a lot of additions with no more accountability than why the programs are failing now. There is little that will reduce addiction, and all about treatment. There are weak provisions for prevention. This bill is more focused on growing government programs than effective results. It needs significant amendments.
