Measure: HB4132

Dear Committee:

As a 5th generation Oregonian...who has spent a legal career in Alaska observing the importance of legislative measures on local coastal environmental issues and their economic impact, I would urge your full support for full funding of any measures that assist the ODFW and related entities in maintaining and improving our ocean shore protection zones.... They are a fantastic hope for the future---but we will have no real future without funding to keep up scientific & related monitoring, studies, and efforts to better understand, protect and expand them.
