

Submitter: John Coats

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB1503

Why am I testifying? I believe in the right for citizens to bear arms and the right is being transformed into letters on paper, words in mouths. So I want to attest that the right to bear arms is a condition of life, one aspect of our lives, and often, a vital one for those who are forced to use firearms to prevent crime. Our Constitution references the right, a right we all should treat with respect. Thank you for your time.
