

Submitter: Christopher Braun

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

We need to rethink this whole Measure 110! Obviously, it wasn't structured correctly from the beginning. And the Democrats proposal does not go far enough for helping people find and get into addiction treatment. We need to classify the drug use as a Class A Misdemeanor and NOT as a Class C Misdemeanor. It is imperative that we have a system whereby the users can either choose jail time or an addiction program whereby they can receive full treatment. And we need to insure that they finish the program prior to moving into housing with supportive services. This particular proposal is not going to solve our problems.
