

Submitter: Christopher Braun

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

I support this initiative and say we need to go further to insure people are finding access to addiction treatment. We need to get them into a system whereby they can choose either jail time or time in an addiction program. Upon completion of the program, they can then move into housing with support services. Obviously, this will require some additional work on the part of our legislators but it is important. We need to insure that people find and secure placement in a valid treatment program.
