Testimony on SB 1503 -3 Amendments

The Dash 3 amendments to SB 1503 demonstrate beyond all doubt what the intent of this legislation is.

Why shovel a pile of money into the OHA with the *hopes* that they will recommend more gun bans when you can give it to the DOJ which has *already* spent millions of tax dollars to end the legal sale of firearms in Oregon?

Always better to go with the sure thing. Smart move.
