

Submitter: Christy Phillips
On Behalf Of:
Committee: House Committee On Education
Measure: HB4082

This program has impacted our family in an unmeasurable way. When we moved to Creswell, it was challenging for our kids to make friends. After looking for part time summer programs to support my kids social development and being disappointed that we couldn't financially swing it, we stumbled on Creswell clubhouse. They not only offered a military discount, but were able to offer an affordable price that was manageable for our family. Since then, my oldest son has been able to volunteer in many different aspects with Clubhouse and who has supported him in growing outside his comfort zone. The program is needed in our community. It provides a safe, fun, educational environment that is close to our home/work. The cultural exposure offered is a bonus for my children! Thank you
