

Submitter: Troy Johnson

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

I feel that the insanity of non-enforcement and decriminalization of controlled substances has been an expensive failure in terms of human life, crime, and skyrocketing addiction rates. I see Oregon cities becoming less safe, businesses fleeing, and homelessness keeping pace with addiction rates. As legislators your job is to hear the people, ensure laws protect the majority, not sacrifice safety of all to enable addicts and criminals.
