Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB4045

As this bill is currently written I can't support it as it doesn't include Child Welfare caseworkers who everyday go into the field and deal with hostile parents who assault them or threaten to kill them or in some cases stalk workers. Furthermore caseworkers are regularly assaulted by clients and are not allowed to defend themselves.

Add Child Welfare caseworker staff who also are in courthouses, jails and prisons and who also work in hazardous situations.
