

Submitter: Harriet Cooke

On Behalf  
Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB4083

As a PERS recipient concerned not only with my own welfare, but also with the welfare of the next generations, I strongly urge you to support HB 4083 and vote it out of committee. Fossil fuels are no longer an investment of value, and shifting to renewable sources of energy and battery storage is the way to invest in the future, and keep PERS in good shape. I understand that CALPers was able to significantly increase their returns while cutting their investments in coal, and it would behoove us to see how they did this and find sustainable alternatives to coal. Thank you!
