

Submitter: Carletta Pfeiffer

On Behalf Of: I have seen what criminalizing does

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I am writing to urge you to vote NO on HB 4002. This bill will overturn Measure 110, making possession of small amounts of controlled substances a misdemeanor punishable by jail time, a fine, or both. Criminalizing addiction has never worked to reduce overdose deaths or help people get care. HB 4002 takes us backwards by:

- Treating addiction as a crime;
- Inflicting more government harm and violence on Black and brown communities;
- Putting Measure 110 funding at risk. Diverting funding to the criminal system that could be used for addiction services;
- Further overburdens the public defense system, which is already over capacity.

Addiction is not a crime, it is a healthcare issue. Oregon can and must do better than HB 4002 to address the addictions crisis. HB 4002 is an inadequate and harmful approach that will not solve our addictions crisis and will instead waste taxpayer dollars. HB 4002 will result in more people going to jail, more people being harmed, more individuals being displaced, more families being disrupted, more people dying from overdoses. The legislature should focus on real solutions that will help our communities instead of returning to the failed policies of the past that simply won't work.

I urge you to please vote no on HB 4002.

I am poor. I have seen what addiction can do and what criminalizing it does. Criminalizing addiction creates far better criminals with a much wider skillset. An addict isn't automatically a criminal except in their addictive behavior. When we expose these poor people to real criminals we all suffer. Criminalizing addiction costs far more money than it is worth. You create people far more willing to commit criminal acts which the govt must house and feed over and over and over again. Criminalizing one addict creates a drain on the state for decades. No one will hire them and so they resort to the skillset they learned in prison, end up in prison again and so the cycle perpetuates. Use the money that would be used to incarcerate addicts and instead create a truly effective method for treating addiction instead of criminalizing it: treatment. No addict will stop because you make their addiction a crime. Many would stop if we gave them the means to stop. Give them a hand up rather than a hand shoving them down into a horrible cycle of lifetime abuse—abuse that we will all have to pay for one way or another.
