

Submitter: R C

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Our close friends son was found dead in his bed by his older brother. OD. I am so sickened by all of the fentanyl and drugs in our communities here in Oregon. It is pathetic that this is allowed to continue. We indeed have a Drug Crisis. Shame on legislators for not doing more.

Building shelters will not stop the destruction of families, will not stop the drug use. Our society is in a downfall and it seems no one cares. And why are there plug in's for street people to charge their phones?? Why do they get handouts??? It should be they get food assistance if they are clean. We need to get our society back.

Do not give drug dealers drivers licenses and be strict on keeping them out and down.

I am so worried and concerned for our society. Please help us. Oregon is now famous for its horrible drug and homeless problems.
