

Submitter: Nickyfore Kojin
On Behalf Of: Oregon
Committee: Senate Committee On Judiciary
Measure: SB1503

When Oregon democrats propose these laws, it always seems to attack the law abiding and not actually try to go for the root of problems; just always going after people who mind their own business. I'm willing to bet you are going to hire anti gun people and groups instead of actual experts, like firearm professionals and pro American psychologists. I hope you know people are not stupid and know your tatic of "slowly but surely, little by little" removal of freedoms. You waste tax payer dollars to attack our god given rights, but we have to donate to protect freedom; it should be the other way around.
