On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1503

The sponsors of this bill are stuck on restricting and taking away Second Amendment rights from law abiding citizens in Oregon. They blame gun owner instead of trying to repeal Measure 110. Newweek published an article which stated : "substance use and aim to legalize all "Measure 110 has been working exactly as intended. That is, hardly at all."

Opioid deaths increased 58 percent between 2020 and 2021, outpacing the national increase of overdose deaths of 17 percent. If left unchanged, this failing experiment will continue to take the lives of Americans more than any firearm..
