

Submitter: Janet Black

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1537

I am in favor of much of SB 1537, but can not support the part of it that ignores Oregon's land use laws. We need small, affordable housing that is within our existing UGB's. When we need more buildable land, the UGB system has provided it. The current laws work. Please amend the bill to ensure that current land use laws continue to be followed.
