

Submitter: Lisa Caulley

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

I support the increase in penalties for controlled substances! Please make this more than a slap on the hand and make drug users accountable to get the help they need. Our towns are over run with drug users and homeless and they go hand in hand! Oregon didn't vote for measure 110 to let these people get away with openly using drugs, they wanted to help them over come their addictions but there is zero accountability, please make them face judges and be required to get treatment.
