On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Oregon must repeal 110 completely. NO 'adjusting', just pure repealing. The Democrat Party of the 21st Century seems to have a political vendetta against law enforcement, a policy of no responsibility for consequences, an intent to sugar coat and camouflage the disastrous results of their governing. This is what they are trying to do with the drug market. Why would any elected official with a grain of common sense think that legalizing drug use with give a good result.

I would also like to think that if there are politicians with a grain of common sense, that they would vote their conscience and not be pressured into following the leader like a lemming heading for the cliff.
