

Submitter: David Chamberlain

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

Permanent standard time would have the sun rising as early as 4:00 am, with twilight even earlier, for parts of the summer. It would also put Oregon 4 hours off of the East Coast, instead of the current 3. We already passed Permanent Daylight Savings time. Stick the course on that.
