

Submitter: Benjamin Biller

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB1507

Dear Senate health Care Committee,

I have worked in the field of mental health in Oregon for five years. Coming from working in other states, I have been shocked to see how little support is available for the most vulnerable Oregonians. Public guardianship is a vital need for the individuals who are most at risk. This program needs to be increased in capacity as an important piece of the puzzle to have Oregon on par with the rest of the country when it comes to mental health support.

Thank you for your consideration,

Benjamin Biller
