

Submitter: Wendy Schwall

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB4130

Dear Representative,

Please support HB4130. We need to get corporations out of the health care business. I have friends who have already been negatively impacted by a corporate takeover of their health care providers. I am concerned that the quality of our health care, the independence of doctors and health care providers will be severely compromised when owned and managed by large, for profit, corporations. I urge you to vote yes on HB 4130. Thank you for your consideration.

Kind Regards,
Wendy Schwall
