

Submitter: William Blodgett

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB1520

The devastation the Archie Fire reeked on our personal, business, and community life is immeasurable. We will never have our Forest back. We lost our cherished pets, our resident bear, a cougar was burnt to death; I have a picture of its skeleton on or property. We lost all our family memories, personal property, business assets, homes. The emotional toll has been great. If you can at all find it in your hearts and minds to help us with the tax burden that faces us, we would have some sort of renewed faith that there are people who care. Thank you.
