

Submitter: David E

On Behalf Of: NA

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I Am in favor of studying the failure of measure 110 in correcting our addiction problem. These drugs being used on the streets have no therapeutic value. They need to be banned and the users need treatment to deal with the addiction. Dealers and manufacturers need to be put in jail for a very long time.

I am a runner and one of my favorite places to run is no longer safe to go there alone.
