

Submitter: j r

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB1503

Given the title, proponents, and timing of this measure it is clear this is an underhanded attempt to conflate gun ownership as a health issue in order to restrict a constitutional right.

Factoid - there are over 10 times as many murders of innocent souls through abortion than any firearm related fatalities in Oregon.

I don't know how anybody can support this measure with a clear conscience. I suggest you spend some time looking in the mirror.

Doesn't this State condone suicide anyway?
