Committee: Senate Committee On Judiciary

Measure: SB1503

A new task force and this measure will do nothing to stop gun violence and suicide. We know what causes both. More and more gun violence and suicides are being linked to the over-use of anti-depressants at younger and younger ages, the confusing LGBTQ movements, and the break-down of the family unit. Start there, and we will support your efforts to help stop this corruption of Oregon's society.
