

Submitter: Katherine Stone

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

I worked in the mental health field for 15 years for people with chronic mental illness and co-occurring disorders, including addictions of every kind, compounding the mental illness and leaving people in a vicious cycle. Bill 110 is one of the worst bills that could have been passed, compounding the devastation further. There must be accountability to help people. It is a common sense principal that was lost in Bill 110. Thank you. Katherine Stone, M.A., QMHP, CADC I
