

Submitter: Loretta Guzman

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

Measure 110 needs to be repealed. Our kids and productive people need to be heard and put first. Listen to us this is not ok for people with these issues of addiction and the mental illness that comes from the use of these drugs that are harming and killing people daily. They need to have consequences and choices to get the help they need. They can not make a rational decision on their own as they are high and harming everyone of us around them to get that next high. Using in our streets sends a bad signal to our children.
