

Submitter: Anfisa Piatkoff
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

Dear Committee members,
Please oppose SB1538. Local school boards and parent committees need to be able to discern which books, curriculum, books etc meet the needs of their communities. Keep politics out of schools. The state needs to focus on making sure the schools teach reading, writing and math and leave out the agendas of special interest groups. Leave the rest up to the parents.
Thank you,
Anfisa
