

Submitter: J Spezza  
On Behalf Of: SB1520  
Committee: Senate Committee On Finance and Revenue  
Measure: SB1520

Please please support this bill. Many people in the area are retired and on fixed incomes. Taxes on their settlement fees will greatly reduce the amount of settlement rec'd that was already less than needed for some recovery from the devastating fire. FEMA stepped in as the fire was a federal emergency. The fire was caused by neglect of Pacific Corp. My hope is the passing of this bill will not only help Archie Creek fire victims but also future fire victims loss due to non natural/human caused disasters in the rest of the country. I hope everyday that others will not have to go through the years of uncertainty, sorrow, loss and now taxation as Archie Creek victims have.

Thank you for your efforts!
